INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
CENTRAL COUNTY FIRE AND RESCUE

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the remaining fund information of Central County Fire and Rescue, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

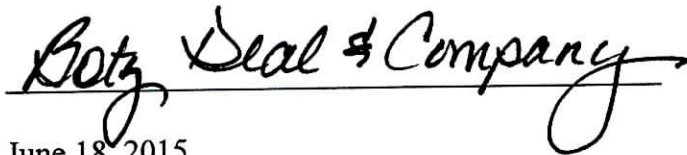

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the remaining fund of Central County Fire and Rescue, as of December 31, 2014, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedule of funding progress on pages 3 through 7 and 27 through 29 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**CENTRAL COUNTY FIRE AND RESCUE
MANAGEMENT'S DISCUSSION AND ANALYSIS
DECEMBER 31, 2014**

The discussion and analysis of Central County Fire and Rescue's financial performance provides an overview and analysis of the District's financial activities for the fiscal year ended December 31, 2014. It should be read in conjunction with the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

- In the government-wide financial statements, the District's assets and deferred outflows exceed its liabilities at December 31, 2014 by \$20,430,467. Of this amount \$14,917,411 (unrestricted net position) may be used to meet the District's ongoing obligations to citizens and creditors.
- District operations increased net position by \$284,725.
- At December 31, 2014, unassigned fund balance for the General Fund was \$12,533,453, which equals 100.0% of the General Fund expenditures for the 2014 fiscal year.
- Wages, payroll taxes and employee benefits comprise 87% of General Fund expenditures.

REPORT LAYOUT

This report consists of Management's Discussion and Analysis (MD&A), government-wide statements, fund financial statement, notes to the financial statements, and supplementary information. The first several statements are highly condensed and present a government-wide view of the District's finances. Within this view, all District operations are categorized and reported as either governmental or business-type activities. Governmental activities include fire protections services, capital outlays and debt service payments. The District currently does not have any business-type activities. These government-wide statements are designed to be more corporate-like in that all activities are consolidated into a total for the District.

Basic Financial Statements

- The Statement of Net Position focuses on resources available for future operation. In simple terms, this statement presents a snap-shot view of the assets the District owns, the liabilities it owes and the net difference. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts. Governmental activities reflect capital assets and long-term liabilities and are prepared on the accrual basis of accounting.
- The Statement of Activities focuses gross and net costs of District programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
- Fund financial statements focus separately on major governmental funds. Governmental fund statements follow the more traditional presentation of financial statements. The District's major governmental funds are presented in their own column and the remaining funds are combined into a column title "Other Non-major Funds". Budgetary comparisons for the General Fund and any major special revenue funds are presented as required supplementary information. A budgetary comparison is presented for the General Fund.
- Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, or other governmental units and/or other funds. The District's Fiduciary Fund is not reflected in the government-wide financial statements because the resources of this fund are not available to support the District's own programs. The District's fiduciary fund is the Employee Benefit Trust Fund.
- The notes to the financial statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the District's financial condition.

The MD&A is intended to explain the significant changes in financial position and differences in operation between the current and prior years.

THE DISTRICT AS A WHOLE

Government-wide Financial Analysis

The District's net position was \$20,430,467 as of December 31, 2014. This analysis focuses on the net position (Table 1) and changes in general revenues (Table 2) and significant expenses of the District's governmental activities.

The District's net position consists of its investment in capital assets (e.g., land, buildings and improvements, equipment, and vehicles); less any related debt used to acquire those assets that is still outstanding, restricted and unrestricted balances. The District uses capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Total net position	<u>\$ 20,430,467</u>	<u>\$ 20,145,742</u>	<u>\$ 284,725</u>

Excess cash in the District's Debt Service Fund was used to retire \$515,000 in outstanding bonds early. Revenues exceeded expenditures in 2014 because of donation of radios totaling \$564,326 resulting in an increase of \$284,725 to the District's net position. The key elements of this increase are as follows:

Table 2

Net position, end of year	<u>\$ 20,430,467</u>	<u>\$ 20,145,742</u>	<u>\$ 284,725</u>

Total revenue increased by \$943,342. The increase was due to the District receiving \$564,326 of radios from St. Charles County and an increase in the debt service tax rate.

Expenses increased by \$1,485,170 from last year. In 2014 personnel costs increased \$1,140,353 on a government-wide basis.

Governmental Funds

The following table presents the amount of revenues from various sources on the modified accrual basis of accounting.

Table 3

	2014	2013	Increase (Decrease)	Percentage Change
Governmental Funds:				
Taxes	\$ 14,111,179	\$ 13,593,998	\$ 517,181	3.8 %

Investment income	51,650	12,522	39,128	312.5
Miscellaneous	34,903	20,399	14,504	71.1
Total general revenues	<u>\$ 14,320,482</u>	<u>\$ 13,716,138</u>	<u>\$ 604,344</u>	4.5 %

Governmental Funds revenue increased \$604,344 or 4.5% from last fiscal year. Taxes comprise 98.5% of revenues. Tax revenue increased because the debt service tax rate increased from \$0.075 to \$0.086 per \$100 of assessed value and the timing of tax receipts.

Governmental Funds expenditures exceeded revenues by \$507,936 for the year ended 2014. This is a result of timing differences between the receipt of bond proceeds in prior years and the occurrence of capital outlay expenditures in the current year.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of the fiscal year 2014, the District had \$17,104,511 invested in a broad range of capital assets, including land, buildings, equipment and vehicles. (See Table 4 below.) Net capital assets increased (including additions and deductions) \$215,902 or 2.2% over the prior fiscal year.

Table 4

	2014	2013	Increase (Decrease)

Net Capital Assets	<u>\$ 10,019,182</u>	<u>\$ 9,803,280</u>	<u>\$ 215,902</u>

The most significant portion of capital assets is buildings and vehicles. Buildings account for 46% and vehicles account for 26% of total capital assets. More detailed information on the District's capital assets is presented in the notes to the financial statements.

DEBT

At year-end, the District had \$6,825,000 in outstanding debt compared to \$7,960,000 at the end of the prior fiscal year, a decrease of 14%.

Table 5

	2014	2013	Increase (Decrease)

The District made principal payments totaling \$1,135,000. More detailed information on the District's long-term liabilities is presented in the notes to the financial statements.

THE DISTRICT'S FUNDS

At the close of the District's fiscal year on December 31, 2014, the governmental funds of the District reported a combined fund balance of \$18,898,186. This ending balance includes a decrease in fund balance of \$432,220 in the District's governmental funds.

General Fund Budgetary Highlights

The District prepares its budget on a cash basis. For 2014, actual revenues on a budgetary basis were \$11,926,025 compared to the budget amount of \$11,933,225. Budgeted revenues were increased to account for the timing of surtax payments. For 2014, actual expenditures on a budgetary basis were \$12,815,350 compared to the budget amount of \$12,908,957.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The assessed valuation of the District increased by \$17.4 million in 2014 from the previous year. The increase in assessed value of the District will result in an approximate increase of \$130,000 of new General Fund revenues on a yearly basis. This reflects a reversal of three straight devaluation of the District since 2009. Information from the St. Charles County Assessor's office indicates that the District will continue to increase in value for the coming year and not experience devaluation in 2015. This would result in additional revenue for the District in the coming years.

CENTRAL COUNTY FIRE AND RESCUE
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Central County Fire and Rescue was formed for the purpose of providing fire protection and rescue services to the citizens of the District, which generally encompasses the City of St. Peters, Missouri and a portion of unincorporated St. Charles County.

A. REPORTING ENTITY

The District applies the criteria set forth in GASB Statement No. 61; *The Financial Reporting Entity* (GASB 61), to determine which governmental organizations should be included in the reporting entity. The inclusion or exclusion of component units is based on the elected officials' accountability to their constituents. The financial reporting entity follows the same accountability. In addition, the financial statements of the reporting entity should allow the user to distinguish between the primary government (including its blended component units, which are, in substance, part of the primary government) and discretely presented component units. Criteria for inclusion of an entity into the primary governmental unit (in blended or discrete presentation) includes, but is not limited to, legal standing, fiscal dependency, imposition of will and the primary recipient of services. The District presently has no component units included within its reporting entity.

B. BASIC FINANCIAL STATEMENTS

Basic financial statements consist of the following:

- Government-wide financial statements
- Fund financial statements, and
- Notes to the basic financial statements

The government-wide financial statements consist of the statement of net position and the statement of activities and report information on all activities of the primary government and its component units. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. All internal balances in the statement of net position have been eliminated, unless their elimination would distort the true cost of delivering services.

The statement of activities demonstrates the degree to which expenses of a given function are offset by program revenues. Program revenue includes: charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity and grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** - continued

B. **BASIC FINANCIAL STATEMENTS** - continued

Separate fund based financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. The major governmental funds are the General Fund, Capital Projects Fund, and the Debt Service Fund. GASB No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category for the governmental and enterprise combined) for the determination of major funds.

C. **MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned or, for property tax revenues, in the period for which levied. Expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified-accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District in general considers revenues available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due.

For the governmental funds financial statements, the District considers all revenues susceptible to accrual and recognizes revenue if the accrual criteria are met. Specifically, property taxes, charges for services, and other miscellaneous revenue are considered to be susceptible to accrual and have been recognized as revenue in the current fiscal period.

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions.

The District reports the following major governmental funds:

The General Fund - The District's primary operating fund, which accounts for all the financial resources and the legally authorized activities of the District except those required to be accounted for in other specialized funds.

Capital Projects Fund - The District uses this fund to account for bond proceeds designated for capital projects.

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued**

C. **MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION - continued**

Debt Service Fund - The District uses this fund to account for revenues collected for the repayment of long-term debt.

Additionally, the District reports the following fund types:

Fiduciary Fund - The District uses this fund to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations and other governments. The Employee Benefit Trust Fund accounts for the assets of the District's retiree health insurance plan held in a Section 115 Trust.

D. **CAPITAL ASSETS**

Capital assets, which include land, buildings and improvements, equipment, and vehicles, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of \$5,000 or more and an estimated useful life in excess of one year. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives is not capitalized.

Capital assets of the District are depreciated using a straight-line method over the following estimated useful lives:

<u>Major Group</u>	<u>Life</u>
Buildings and improvements	15 - 40 years
Fire fighting equipment	5 - 10 years
Office equipment	5 - 7 years
Vehicles	6 - 15 years

E. **ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the reported amounts of assets and liabilities at fiscal year-end and revenues and expenditures during the reporting period. Actual results could vary from the estimates that management uses.

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** - continued

F. **INTERFUND TRANSACTIONS**

Transactions that constitute reimbursements to a fund for expenditures initially made from it that are applicable to another fund are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other interfund transactions are reported as transfers.

G. **COMPENSATED ABSENCES**

The District has formal personnel policies for vacation and sick pay. District employees are allowed to carry forward a limited number of vacation days past year- end. In the event of termination, an employee is paid for accumulated vacation days. At December 31, 2014, employees had accrued vacation of \$129,384 and accumulated sick leave of \$2,165,249. Employees are paid for accumulated sick leave upon termination of employment up to 1,584 hours. A liability for accrued vacation and sick leave has been recorded in the government-wide financial statements.

H. **LONG-TERM LIABILITIES**

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the statement of position. Initial-issue bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the unamortized portion of applicable premium or discount. Bond issuance costs, including underwriters' discount, are expensed as incurred. Amortization of bond premiums or discounts is included in interest expense.

I. **NET POSITION AND FUND EQUITY**

In government-wide financial statements net position is reported in three categories: net investment in capital assets; restricted net position; and unrestricted net position. Net investment in capital assets, represents capital assets less accumulated depreciation less outstanding principal on related debt. Net investment in capital assets does not include the unspent proceeds of capital debt. Restricted net position represents amounts restricted by parties outside of the District (such as creditors, grantors, contributors, laws and regulations of other governments). All other net position is considered unrestricted.

When both restricted and unrestricted sources are available for use, it is the District's policy to use restricted first, then unrestricted resources as they are needed. The government-wide statement of net position reports \$2,311,140 of restricted assets, which is restricted by enabling legislation.

Fund Balance Classification - The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued**

I. **NET ASSETS AND FUND EQUITY - continued**

Nonspendable - Resources which cannot be spent because they are either a) not in spendable form or; b) legally or contractually required to be maintained intact.

Restricted - Resources with constraints placed on the use of resources are either a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed - Resources which are subject to limitations the government imposes upon itself at its highest level of decision making (resolution), and that remain binding unless removed in the same manner.

Assigned - Resources neither restricted nor committed for which a government has a stated intended use as established by the Board of Directors or an official to which the Board of Directors has delegated the authority to assign amounts for specific purposes.

Unassigned - Resources which cannot be properly classified in one of the other four categories. The General Fund is the only fund that reports a positive unassigned fund balance amount. Unassigned balances also include negative balances in the governmental funds reporting resources restricted for specific programs.

The District would typically use restricted fund balances first, followed by committed resources and assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first.

J. **INVESTMENTS**

The District is authorized to invest funds not immediately needed for the purposes to which the funds are applicable, in obligations of the United States Treasury, United States Government Agencies, and Repurchase Agreements, Certificates of Deposit, Banker's Acceptance and Commercial Paper. Investments are carried at fair value.

Pension Trust Fund investments may invest in obligations of the U.S. Treasury, U.S. Agencies, common and preferred stock and other securities approved by applicable sections of the Missouri Revised Statutes and Missouri Constitution.

2. **BUDGETS AND BUDGETARY ACCOUNTING**

The District adopts an annual operating budget on a cash basis for all governmental funds. The legal level of control is at the fund level.

3. **CASH AND INVESTMENTS**

The District's bank deposits are required by state law to be secured by the deposit of certain securities with the District or trustee institution. The value of the securities must amount to the total of the District's cash not insured by the Federal Deposit Insurance Corporation. As of December 31, 2014, the carrying amount of the District's bank deposits totaled \$6,442,458 with bank balances of \$6,703,784. The total bank balance was covered by federal depository insurance or collateralized by securities held by the pledging financial institution in the District's name. The District also has \$32 in cash and cash equivalents held by the Employee Benefit Trust Fund.

Investment Credit and Interest Rate Risk

The District does not have a formal policy addressing credit risk, the risk of loss due to the failure of the security issuer.

The District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District's investments subject to credit and interest rate risk disclosures as of December 31, 2014 include:

<u>Investment</u>	<u>Amount</u>	<u>S & P Rating</u>	<u>Average Maturity</u>
Fixed Income Mutual Fund	\$ 108,166	N/A	3 years
Fixed Income Mutual Fund	189,514	N/A	7 years

4. **PROPERTY TAX**

The District's property tax is levied each year on the assessed value listed as of the prior January 1 for all real and personal property located in the District. Taxes are levied on September 1 and payable by December 31. A lien is placed on the property on January 1 and is then subject to interest and penalties. The assessed value at January 1, 2014, upon which the 2014 levy was based on an assessed value for real, personal and public utility property, was \$1,490,035,118. The District's tax rate was levied per \$100 of assessed value as follows:

General Fund	\$.7637
Pension Tax Fund	.0467
Debt Service Fund	.0860

5. **CAPITAL ASSETS**

Capital asset activity for the primary government for the year ended December 31, 2014 is as follows:

All depreciation expense was charged to public safety on the government-wide financial statements.

6. LONG-TERM DEBT

General Obligation Bonds - The District has been authorized to issue up to \$12,000,000 in bonds. The bonds were issued for the purpose of constructing, purchasing, equipping and maintaining fire stations, and purchasing fire-fighting apparatus and auxiliary equipment for the District. These bonds are being serviced through a separate property tax.

2010 Refunding Bonds with annual installments of \$216,977 to \$715,575 through February 2022, interest at 2.0% to 4.75% \$4,845,000

Annual debt service payments are as follows:

<u>YEAR</u>	<u>PRINCIPAL</u>	<u>INTEREST</u>	<u>TOTAL</u>
2015	\$ 515,000	\$ 137,639	\$ 652,639
2016	565,000	111,989	676,989

Total	<u>\$ 4,845,000</u>	<u>\$ 576,633</u>	<u>\$ 5,421,633</u>

Advance Refundings - In 2012, the District defeased \$685,000 aggregate principal amount of the 2007 general obligation bonds. In 2014, the District defeased \$515,000 aggregate principal amount of the 2007 general obligation bonds. As a result, the liability has been removed from the governmental activities column of the statement of net position.

Certificates of Participation Notes Series 2013 - The certificates, totaling \$2,060,000, were issued to construct, furnish and equip a new storage facility and a fire station at interest rate of 2.75%. Debt service payments are to be made out of General Fund. At December 31, 2014, the District had \$1,980,000 outstanding in the Certificates of Participation Notes Series 2013.

Annual lease payments are as follows:

<u>YEAR</u>	<u>PRINCIPAL</u>	<u>INTEREST</u>	<u>TOTAL</u>
2015	\$ 80,000	\$ 53,350	\$ 133,350

7. **LEASES - SOLAR**

The District leases solar panels which were added to five buildings. The lease commenced on August 27, 2014 and shall terminate after 20 years. The District pays \$9,180 annually. Future minimum payments are as follows:

2015	\$ 9,180
2016	9,180
2017	9,180
2018	9,180
2019	9,180
2020-2024	45,900
2025-2029	45,900
2030-2034	42,840
TOTAL MINIMUM LEASE PAYMENTS	<u>\$ 180,540</u>

8. **RISK MANAGEMENT**

The District is exposed to various risks of loss related to tort; theft of; damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District purchases commercial insurance to cover risks related to building and other District property, crimes, business, travel, earthquakes, and employee blanket bonds. The District purchases workman's compensation insurance through Missouri Employers Mutual (MEM). Settled claims resulting from these risks have not exceeded coverage in any of the past three years.

9. **RETIREMENT PLAN**

The District has a money purchase defined contribution plan which covers all full-time employees over age 21 with one year of service. Benefits vest after one year of service and normal retirement is at age 65. Members are not allowed to contribute to the plan. For the year ended December 31, 2014, the District made contributions totaling \$678,044.

10. **DEFERRED COMPENSATION PLAN**

The District offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all District employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. The District matches contributions up to \$5,200 annually. Contributions for the year-ended December 31, 2014 totaled \$321,118.

11. **COMMITMENTS AND CONTINGENCIES**

From time to time, the District is a party to various pending claims and legal actions arising in the ordinary course of its operations. Although the outcome of such matters cannot be forecast with certainty, in the opinion of management, all such matters are adequately covered by insurance, or if not covered, are without merit or involve amounts such that an unfavorable disposition would not have a material effect on the financial statements of the District.

12. **OTHER POST EMPLOYMENT BENEFITS (OPEB)**

Plan Description and Provisions - The District has a single-employer other post-employment benefit plan that provides a subsidy for health insurance premiums for retired employees and their dependents who voluntarily retire on or after age 50 with at least 10 years of service. Once the retiree reaches age 55, the District pays \$400 per month of the retiree's health insurance premium for up to 10 years or until they reach age 65.

Net OPEB Obligation

Triennial valuations are performed using the Projected Unit Credit Method, assuming pre-retirement and post-retirement rate of return of 5% and using the mortality rate based on RP2000 Blue Collar for Males, offset 4 years for females.

The District's annual other post-employment benefit cost of the current Plan year is as follows:

Annual required contribution (actuarially computed)	\$ 51,060
Interest on net benefit plan obligation	20,468
Adjustment to annual required contribution	<u>(23,664)</u>
Annual benefit plan cost	47,864
Contributions made	<u>(-)</u>
Increase in net benefit plan obligation	47,864
Net OPEB obligation, beginning of year	<u>409,359</u>
Net OPEB obligation, end of year	<u>\$ 457,223</u>

12. **OTHER POST EMPLOYMENT BENEFITS (OPEB) - continued**

Trend Information - Other Post Employment Benefits

Fiscal Year Ended December 31,	Annual Benefit Plan Cost	Percentage Contribution	Net OPEB Obligation
2012	\$ 52,004	192.3 %	\$ 363,774
2013	45,585	0.0	409,359
2014	47,864	0.0	457,223

Funded Status and Funding Progress - As of January 1, 2013, the most recent actuarial valuation available, the plan was 45.9% funded. The actuarial accrued liability for benefits was \$640,932, and the actuarial value of assets was \$294,269, resulting in an unfunded actuarial accrued liability (UAAL) of \$346,663. The covered payroll (annual payroll of active employees covered by the plan) was \$6,320,798, and the ratio of the UAAL to the covered payroll was 5.5%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as RSI following the notes to the financial statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

13. **SUBSEQUENT EVENTS**

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through June 18, 2015, the date the financial statements were available to be issued.

FOR THE YEAR ENDED DECEMBER 31, 2014

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) Formal budgetary integration is employed as a management control device during the year for all funds. These budgets are adopted on the cash basis of accounting.
- 2) The Board of Directors approves the tax rate by ordinance to fund District operations. Once this rate has been established, the Board of Directors approves the total budget appropriation and amendments. The Budget is monitored monthly through a line item budget comparison report by fund. Any significant variances are investigated and resolved.
- 3) Unused appropriations for all of the annually budgeted funds lapse at the end of the year.
- 4) Subsequent to its formal approval of the budget, the Board of Directors has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the budget information included in the financial statements.
- 5) The District's budgetary process is based upon accounting for certain transactions on a basis other than generally accepted accounting principles (GAAP). To provide a meaningful comparison of actual results with the budget, the actual results of operations are presented in the budgetary comparison schedules in accordance with the budget basis of accounting. The differences between the budget and GAAP basis of accounting are that revenues are recorded when received in cash (budget) as opposed to when they are measurable and available (GAAP) and expenditures are recorded when paid (budget) as opposed to when the obligation is incurred (GAAP).
